PROFILE

Dynamic software Engineer with 9 months of experience in software development. Proficient in a variety of technologies including Javascript, React, C# and .NET Framework. Skilled in frontend development to optimize productivity and streamline operations.

WORK EXPERIENCE

Software Engineer - Pratiti Technologies   (August 2023 - PRESENT)

A Comprehensive Social Platform for Musicians (LuteFish)

- This innovative social platform designed and developed using React exclusively for musicians, combining the essence of professional networking and collaborative jam sessions.
- Project involved serving as the front-end developer, leveraging React functional components, React hooks to create a seamless and engaging user interface.
- Designed and implemented a user-friendly interface that seamlessly integrates professional networking and collaborative music sessions, resulting in a remarkable 50% improvement in musician experience.

Du Energy Management Application

- Dedicated and versatile professional with extensive experience in both manual testing and software development within the energy management sector.
- Conducted comprehensive manual testing procedures to ensure the accuracy and reliability of energy management software applications.
- Collaborated closely with development teams to identify and address software defects, ensuring timely resolution and maintaining high product quality standards.

Test Rig Application

- Designed and developed a comprehensive test rig management application using C# WinForms and .NET Framework.
- Implemented advanced features to efficiently manage and record test rig data, leveraging C# programming expertise and WinForms framework capabilities.
- Demonstrated proficiency in utilizing .NET technologies to ensure seamless integration and optimal performance of the application, contributing to streamlined operations and enhanced productivity within the test rig systems.

TECHNICAL SKILLS

Technologies :- Javascript, JSX, C, C++, C#
Frameworks :- React.js, Windows Forms .NET Framework
SDLC Methodology : Agile
Others : DOM Manipulation , ES6

EDUCATION

- **Govt. College of Engineering,** Jalgaon | B.Tech, CSE | **CGPA: 8.9**   (AUGUST 2019 - JUNE 2023)
- **Nemsushil Junior College**, Taloda | HSC | **Percentage: 82.15**   (JUNE 2018 - JUNE 2019)
- **G.H.Mahajan High School**, Taloda | SSC | **Percentage: 97.40**   (JUNE 2016 - JUNE 2017)

PERSONAL PROJECTS

Weather Web App : Designed and developed a weather application in React, leveraging APIs to retrieve real-time weather data and forecasts.

Personal Portfolio : Develop and Deploy a personal portfolio application in React, Ensured seamless responsiveness across multiple devices and screen resolutions through effective implementation of responsive web design principles.

Share Market Trading App : Developed share market graph visualization and forecasting application utilizing real-time APIs and React framework to display live market data.

Library Management : Library management system(.Net windows form, ASP .NET, SQL Server) internship project of pratiti technologies
